Index to Volume 14, 1995

(No. 1 pp 1–76; No. 2 pp 77–156; No. 3 pp 157–205; No. 4 pp 206–228)

Adverse drug reactions 7,45,175,193,255
attitude survey 193
postmarketing surveillance 7,45
spontaneous reporting 255
Alcohol
alcoholic muscle disease 117
interaction with MAOI 206
interaction with tricyclic antidepressants 206
Alcohol-induced muscle disease 117
acetaldehyde
alcohol
alcoholic muscle disease
alcoholism
myopathy
protein synthesis
Alzheimer's disease treatment 101
aluminium tacrine
choline
cycloserine
desferrioxamine
ergoloid meylates
hydergine
indomethacin
lecithin
oxracetam
physostigmine
velnacrine
Antidepressant drugs
drug-drug interactions 207
drug-food interactions 227
Around the journals 65,151,193,255
ACE inhibitor-induced cough 194,255
antiulcer drug-induced gynaecomastia 65
captopril-induced cough
Jin Bu Huan-induced acute hepatitis 67
cimetidine-induced gynaecomastia 65
diethylstilboestrol-induced cancer 65
drug-induced cutaneous reactions 66
enalapril-induced cough 194
Imigran-induced chest pain 68
Indian ethnic remedies and poisoning 67
interaction—clinafloxacin with theophylline 198
interaction—cyclosporin and grapefruit juice 197
interaction—didanosine and itraconazole 152
interaction—thrombolytic agents 200
interaction—triazolam and ketoconazole 151
interaction—warfarin drugs and food 66
lisinopril-induced cough 194
lipid-lowering drug-induced rhabdomyolysis 194
low density lipoprotein oxidation 153
naftidrofuryl-induced hepatotoxicity 195
omeprazole-induced gynaecomastia 65
omeprazole-induced arthralgia 69
pancreatic enzyme-induced colon wall thickening 196
paraquat poisoning 68
quinolone antibiotic-induced tendon damage 255
red wine 153
sumatriptan-induced chest pain 68
sumatriptan data sheet changes 69
tendon damage 255
thrombolytic agents 200
Blood transfusion infectious hazards 157
Babesia
bacterial infection
Chaga's disease
hepatitis A, B, C, D, E
HIV infection
human T-cell leukaemia viruses
Leishmaniasis

Blood transfusion infectious hazards 157
Babesia
bacterial infection
Chaga's disease
hepatitis A, B, C, D, E
HIV infection
human T-cell leukaemia viruses
Leishmaniasis

malaria
prion transmission
protozoal infection
Rickettsia infection
toxoplasmosis
trypanosomiasis
viral infection
Diethylstilboestrol 65
adenocarcinoma
vaginal clear cell carcinoma
Drug-food interactions
antidepressant drugs 227
tea and coffee
cyclosporin grapefruit juice 197
tyramine
warfarin 66
Drug-drug interactions
antidepressant drugs 206
clinafloxacin—theophylline 198
didanosine—itraconazole 152
flupenthixol—anti-Parkinson 206
flupenthixol—antidepressant
flupenthixol—antihypertensive
ketoconazole—triazolam 151
thrombolytic agents 200
warfarin 66
Eosinophilia-myalgia syndrome 37
contaminants
fasciitis
L-tryptophan
1,1′-ethylidenebis [L-tryptophan]
2[3-indolylmethyl]-L-tryptophan
3-anilino-L-alanine
scleroderma-like skin reactions
Famous names in toxicology 1,77,207
Dr Thomas Young
John Gaddesden
Mithridates VI of Pontus
Flupenthixol
interaction with drugs
interaction with food
Gaddesden, John of 207
Geriatrics 45,175
gerontology
adverse drug reactions
postmarketing surveillance
Indian ethnic remedies 67
arsenic
Chandra prabha
lead
Maya Yograj Guggal
mercury
Jin Bu Huan 67
acute hepatitis
L-tryptophan 37,206
eosinophilia-myalgia syndrome 37
contaminants 37
fasciitis 37
interaction with SSRI 206
interaction with antidepresants 206
scleroderma-like skin
abnormalities 37
Mithridates VI of Pontus 77
Monoamine oxidase inhibitor (MAOI) 206
interaction with:
alcohol
anaesthetics
anti-Parkinson drugs
anticoagulants
antihypertensive drugs
appetite suppressant drugs
barbiturates
caffeine or xanthine
insulin and antidiabetic drugs
levodopa
mazindol
muscle relaxants
SSRI
sympathomimetic amines
tetracycline
tricyclic antidepressants
tryptophan
tyramine
Nutrient-drug interactions 227
AIDS medication
antibiotic
anticoagulants
antihypertensive
bisphosphonates
cephalosporin

digoxin
griseofulvin
ibuprofen
itraconazole
ketoconazole
levodopa
lithium
lovastatin
MAOI antidepressant
methyldopa
nitrofurantoin
pseudoephedrine
tricyclic antidepressants
vitamin/mineral supplements
Organophosphorus compounds 85
chemical warfare agents
delayed neuropathy
electroencephalography
electromyography
insecticides
nerve conduction
neurobehavioural effects
neurological effects
neurophysiology
neurotoxic effects
psychological effects
Paraquat 68
properties
poisoning
treatment
Postmarketing surveillance 7,45
Selective serotonin reuptake inhibitors (SSRI) 206
interaction with:
antiarrhythmic drugs
anticonvulsant drugs
carbamazepine
dopaminergic drugs
lithium
MAOI
phenytoin
propranolol
sumatripan
theophylline
tricyclic antidepressant
tryptophan
vinblastine
warfarin
Sumatriptan
chest pain 68
data sheet changes 69
interaction with SSRI 206
Toxic oil syndrome 11
aniline
contaminants
endovasculitis
eosoniphilia
epidemiology
erucic acid
immunology
rapeseed oil
toxicology
Tricyclic antidepressants 206
interaction with:
adrenaline
alcohol
anticholinergic drug
antiepileptic drug
antihistamine drug
antihypertensive drug
antimalarial drug
antipsychotic drug
baclofen
barbiturate
calcium channel blocker
H2-receptor antagonist
levodopa
MAOI drug
orphenadrine
SSRI
sympathomimetic amine drug
tryptophan
Tyramine 227
in food
interaction with MAOI 227
Warfarin 66
interaction with food and drugs
interaction with SSRI drugs
Young, Dr Thomas 1
